

ARRA 13/ ARRA PASSION STAR™

Features:

Type:	Red Seedless
Harvest time:	Early
Taste:	Sweet neutral
Texture:	Fleshy
Berry size:	12-22 mm
Fertility:	Very high

Cultivation:

Pruning:	Spur
Thinning:	Apply at 110% flowering 1 ppm GA. With poor vigour and cold nights, use 1% low-biuret urea with the GA
Sizing:	Apply 15 ppm GA at 6-7 mm
Crop load:	56 000 bunches/ha
Bunch size:	80-90 berries/bunch
Ethephon:	No

General:

- Good shelf life
- Susceptible to berry crack with rain and/or cold nights
- Bunches to be reduced to one per shoot before flowering
- No problems with shot berries
- Too much GA result in easier cracking and is negative for colour development
- Poor vigour – adjust nitrogen
