

ARRA 10

Features:

Type:	Red Seedless
Harvest time:	Early
Taste:	Very good, with a slight muscat
Texture:	Firm and fleshy
Berry size:	16-18 mm
Fertility:	Very good

Cultivation:

Pruning:	Spur
Thinning:	Not necessary, bunches can be straggly
Sizing:	Apply 10-15 ppm GA at 6-7 mm + 1 ppm cytokinin
Crop load:	56 000 bunches/ha
Bunch size:	80-90 berries/bunch
Ethephon:	Not necessary, except in Namibia, where one application of 40 ml/100 litre water is recommended

General:

- Berry shatter might be a problem – avoid high concentrations of GA

Table Grapes
