

ARRA 30/ ARRA SUGAR DROP™

Features:

Type:	White Seedless
Harvest time:	Early – just after Prime/Early Sweet™
Taste:	Sweet neutral
Texture:	Firm
Berry size:	18-20 mm and elongated
Fertility:	Very good, strong vigour

Cultivation:

Pruning:	Spur
Thinning:	1 ppm GA at 110% flower, only when poor conditions are experienced during set
Sizing:	1.5 ppm cytokinin at 6-7 mm. In the Orange River it may be necessary to add 5ppm GA at 6-7 mm berry size
Crop load:	57 000 bunches/ha
Bunch size:	70-80 berries/bunch

General:

- Variety still under evaluation
- Labour friendly
- No problem with shot berries or uneven berries
- Can give style end cracks after set
- Bunches should hang free and not touch each other

Table Grapes
