

Lady in Red / Pink Lady®

- A New Zealand discovered mutation of Cripps Pink showing the same bright blushed pink red colour, but covering over 70% of the fruit.
- Fruit colours earlier
- Strong vigour with upright growth habit
- Harvest time slightly after Cripps Pink
- Exceptional pack outs of Pink Lady® apples
- Lady in Red has been approved by Apple and Pear Australia to be sold as Pink Lady®
- Trees will only be propagated from marked wood in line with the instruction from SAPLA
